

Doing Business in Paradise

The Cayman Islands are many things to many people: beautiful beaches, tropical weather, and possibly one of the best places to structure an international transaction.

Clearly, tax-free reorganizations are much easier to accomplish in a jurisdiction that does not have income taxes on individuals or corporations. For decades, this has been one of the prime reasons that the Cayman Islands are a favorite place to form a holding company for international investments in property or enterprise. Additionally, the banking and finance sector in the Caymans are world-class and only the Swiss provide as secure a transaction pipeline as the financial institutions here.

Decosimo Global and Decosimo Cayman, Ltd. provide the depth of resources and experience to help your business reorganize or transact international concerns. Regardless if you are investing in condominiums in Costa Rica or a shoe factory in Brazil, there are opportunities for

your business in the Caymans that are unavailable anywhere else on the globe. Trust settlement and asset protection are also favorite planning opportunities available to businesses and individuals.
