

## Dedicated to the business of healthcare

As one of the leading regional providers of professional services to the healthcare industry, Decosimo helps clients to devise results-oriented business strategies, and provides insights that help them stay ahead of the competition and achieve market-leading results.

A cornerstone of many of Decosimo's client relationships, our **Assurance Services** help health care organizations manage risk as well as to become more efficient and profitable by uncovering hidden opportunities. Our financial professionals help clients measure their performance, identify and analyze business processes and risks, and determine how these factors influence financial reporting.

Decosimo's **Tax Services** professionals provide clients with creative solutions that help integrate tax planning into the decision-making process. For organizations with a tax-exempt status, our professionals help clients address risks and explore the benefits that go along with this tax code designation.

Decosimo's **Corporate Finance** group is a recognized leader in providing corporate finance, merger and acquisition, and corporate responsibility services. Our professionals have developed significant buy-side, sell-side and financial advisory resources; identified significant value enhancing financial improvement opportunities.

We have created valuable relationships with banks, commercial finance companies, mezzanine lenders, venture capital funds, private equity funds and public finance divisions of investment banking firms. Our team has been

involved in a variety of health care valuation engagements. We are also well suited to manage divestiture of hospital services and entire hospitals in a manner sensitive to the strategic and community needs.

In addition to the traditional assurance and tax services of Decosimo, we offer a wide range of other solutions and support to a variety of healthcare issues:

- Financial Analysis
- Forecasts and Projections
- Acquisition and Divestiture
- Business Valuation
- Reimbursement Support
- Corporate Responsibility for Profit and Not-for-Profit Companies
- Capital Formation

We know the business of healthcare from both the inside (direct experience) and outside (Decosimo's practical business experience across a diverse set of industries).
